

Please keep the Do Not Call law in effect. I find telemarketers to be annoying and an invasion in my home. One place a person should have a right to not be bothered is his home. You spend your life paying for your home and paying property taxes and taking care of your home. I have never bought from a telemarketer and never will simply based on the fact I feel they have no right to "invade" my home. The Do Not Call law is an excellent law and be kept in tact.
